

THE RULES OF ONE-DAY KAYAKING TRIP

1. An adult person signs RENTAL CARD by the river. Fills in their personal data, information about the type and number of the equipment and signs a clause: „ P.T. Kajakiem.pl doesn't bear the responsibility for the hirer safety. The hirer bears the full responsibility for hired equipment and is obliged to use it properly or cover the costs of losing or destroying any part of the rented equipment”.
2. We hire the kayaks according to the price list published on our web site. The final cost depends on the number of kayaks not on the number of people joining the trip.
3. The necessary condition of the reservation is paying an advance described in the confirmation of the reservation. We suggest collecting money from your friends as the number of booked kayaks and days is obligatory. The kayaking season is short and we can't afford blocking the equipment, especially during holiday weekends, when there are more people interested in joining us than we can serve.
4. Please set all the details (the number of boats, the number of small buoyancy vest for kids) while booking the equipment. On the launching day some of the changes may not be possible. We deal with one person representing the group.
5. 5. The equipment should be returned clean so it can be hired again straight away. We don't charge extra for cleaning the equipment, we count on following a good kayaking practice.
6. 6. The trip is taking place on a set route. It is hard to estimate the time of the trip's end. Our drivers await for your call when you get to Stare Kotlice.
7. 7. We offer a parking space free of charge in our base in Jędrzejów. We transfer the drivers for their cars left up the river, after the trip. If it's possible we also take the rest of the group. For your comfort and safety please paddle in a tight formation.
8. 8. In case of renting the equipment we are no longer „organizing the whole trip” which means we do not provide instructors or the insurance. Organizing the trip, pairing crews, deciding about the boats order, providing safety, keeping the group sober, wearing buoyancy vests are the renting person's duties.
